

Ronald Adrian Sarinas

AI & Automation Specialist

Manila, Philippines | sarinasmedia@gmail.com | rasclaw.github.io/ras-portfolio

PROFESSIONAL SUMMARY

AI automation builder with hands-on experience setting up and maintaining workflows in Make.com, n8n, and Zapier. Configures and troubleshoots AI tools (Claude, Gemini, ChatGPT) daily for production systems. Builds API integrations, prompt engineering pipelines, and end-to-end automation workflows. Documents everything using Notion, Google Sheets, GitHub, and structured decision logs.

TECHNICAL SKILLS

Automation: Make.com, n8n, Zapier	AI Tools: Claude, Gemini, ChatGPT, Claude Code
Cloud: Google Cloud Platform, Vertex AI, gcloud CLI, Vercel	APIs: Meta Graph, Google (Sheets, Drive, Gmail, Calendar), REST, Webhooks
Languages: Python (30+ scripts), JavaScript, HTML/CSS	AI Capabilities: Prompt engineering, image gen (Gemini 3.1), video gen (Veo 3.1)
Dev Tools: GitHub, GitHub Actions, FastAPI, Flask, Playwright, Microsoft Copilot	Documentation: Notion, Google Sheets, JSON, Markdown, GitHub

WORK EXPERIENCE

Criminal Data Processor <i>Informdata McKinney Hills, Taguig (Night Shift)</i>	2024 - Present
- Quality checker in human-in-the-loop pipeline after automation collects court data across US jurisdictions - Built an AI-powered knowledge base chatbot (Flask + Claude) indexing 50+ reference documents, replacing manual policy lookup - Created Microsoft Copilot agents that improved team processing workflows and shared them with colleagues	
Leads Qualification Specialist <i>TDCX / Google BPO</i>	2022 - 2024
- Reviewed 200+ websites daily for lead validity, business verification, and Google Ads TOS compliance - Managed high-volume, detail-oriented work with strict quality standards and clear reporting - Deep top-of-funnel experience now applied to AI-powered sales funnel automation	

PROJECTS

DuberyMNL -- Full Facebook Automation Pipeline <i>Live business duberymnl.com</i>
- Built end-to-end pipeline: AI caption generation, image creation via Vertex AI, HITL review, Meta Ads staging, organic posting, comment-triggered engagement, Messenger chatbot, and CRM tracking - Generated 36 approved ad creatives from phone photos using prompt engineering -- no studio, no designer - Integrated Google Sheets as pipeline source of truth with 30+ Python automation scripts - Dynamic landing pages personalized per ad creative, deployed on Vercel
Make.com Automation Workflows
Smart Lead Router: Google Form intake with AI classification, conditional routing to Google Sheets by lead type Client Engagement Pipeline: AI-powered email response system that classifies client intent and drafts personalized follow-ups
Additional Projects
Knowledge Base Chatbot: Flask + Claude AI with keyword-indexed retrieval across 50+ documents for case processors Cinematic Scroll Website: Scroll-driven animated product showcase using GSAP and canvas frame rendering Life Dashboard: Personal dashboard with autonomous moderator agent, financial tracking, and Telegram alerts Scheduled Monitoring: Real-time project alerts via Telegram bots, scheduled through GitHub Actions
